Sir:

Attached hereto are replacement drawings for Figs. 2 and 10.

In Fig. 2, the term "k5" for one of the values of the correction amount has in certain instances been changed to --k7--. This is because the term is in fact different for the terry amount correction amount as discussed in the specification. Appropriate changes have been also made to

Fig. 2 for the sake of consistency. A further change has also been made to Fig. 10 so as to correct the position of the winding director 71. No new matter has been added.

Respectfully submitted,

Akihiko NAKADA et al.
